

Updated February 4, 2021

We are committed to compliance with the Jefferson County and Colorado State Departments of Public Health in our responses to the pandemic and in our efforts to maintain the health and wellness of residents, team members, and visitors. Provided below are the specific points of information pertaining to outside visitors for Villagio of Broomfield, including virtual, Window, courtyard, and indoor visits.

The team member who will receive scheduling, conduct and oversee visits, and disseminate information will be the Community Life Director or designee.

Visits must be **scheduled** per instructions as directed by Community Life Director. We have established a scheduling tool to be used for this. Links are included below. We will not be able to accommodate unscheduled visits, per Department of Health rules. When you schedule your visit, you will receive instructions specific to the type of visit you have scheduled. Virtual, window, and nice-weather courtyard visits will still be supported.

Specific times will be blocked out for visits, and actual visit time is limited based on visit type. This allows for movement of the resident, screening, and sanitizing activity between visits. Please show up a few minutes early for your appointment time to allow for notifying the CLD that you have arrived. For example, if you are scheduled at 11am, please be here at about 10:55am and message Jenn that you have arrived.

Visitors are also limited depending on the type of visit; the group is limited to the CLD, the resident (or residents if the visit is for a couple residing together) and the approved visitor(s). *All visitors must be 18 years or older.*

Physical distance must be adhered to in order to continue with visits. We have our designated spaces set up to facilitate this. Visitors will be required to wear PPE and perform hand hygiene, and visitors who fail screening or are unable or unwilling to be compliant with the requirements will be turned away.

We currently have the visitor area sheltered for window visits, but for nice-weather courtyard visits this may not be the case. We suggest bringing a sun umbrella if you would like some shade.

Please do not bring any items to the visit; your loved one will not be able to receive them without the 72-hour decontamination protocol being upheld and this may lead to distress for them. Please also refrain from bringing pets... it may be distressing for your loved one to not be able to interact with the pet along with all the other restrictions that must be adhered to.

Please reach out to cbrown@villagioliving.com or jclassen@villagioliving.com with questions!
